

Centenary

Admissions Guidebook, 1980-81
Centenary College of Louisiana

*The Centenary
experience ...
where
academic
excellence is
part of a
caring
community.*

Centenary is an equal opportunity educational institution.

This is Centenary

Centenary College is a four-year liberal arts college — the oldest private institution west of the Mississippi River.

With an enrollment of 950 men and women, it affords students an opportunity to nurture their academic endeavors in the warm and personal atmosphere of a small college.

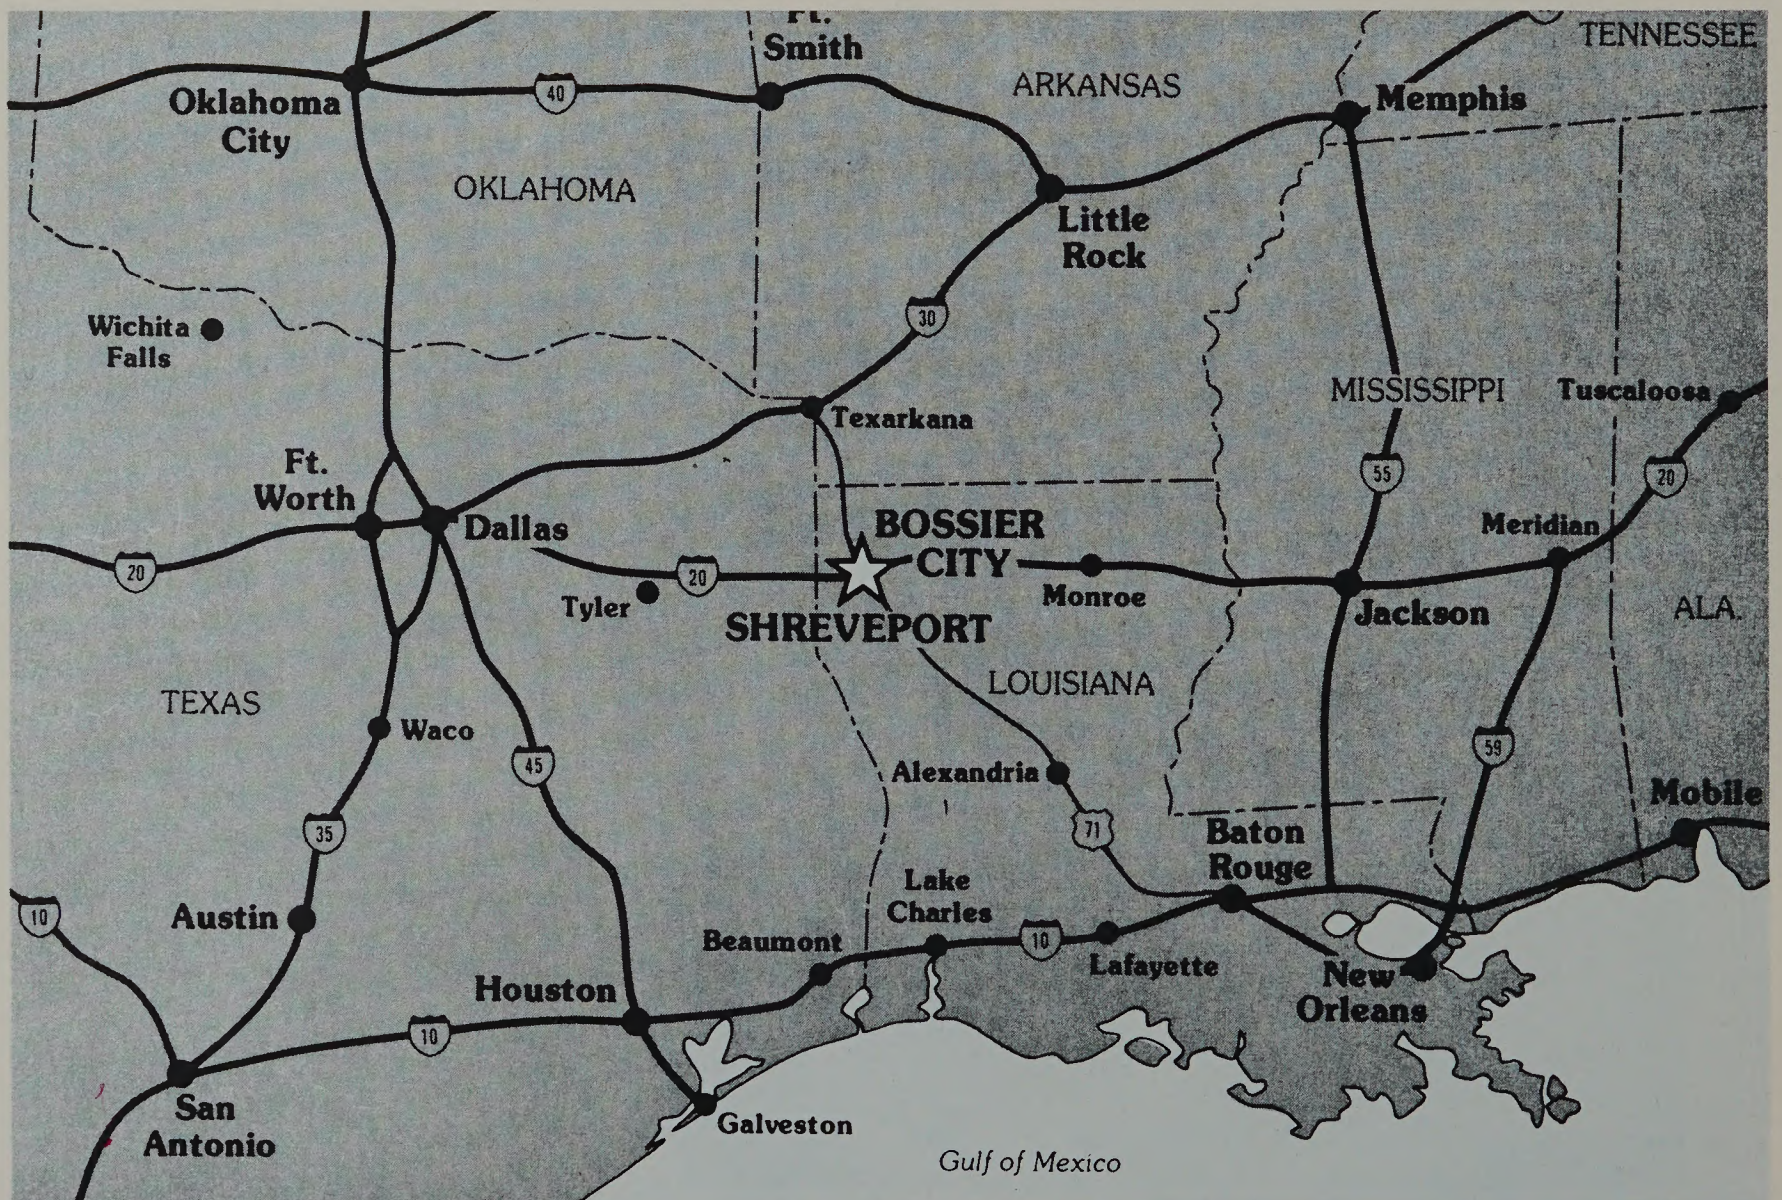

As an institution of the United Methodist Church, Centenary is founded on a Judeo-Christian heritage which emphasizes the wholeness of human life, the interrelatedness of knowledge and the dignity of man.

The Campus

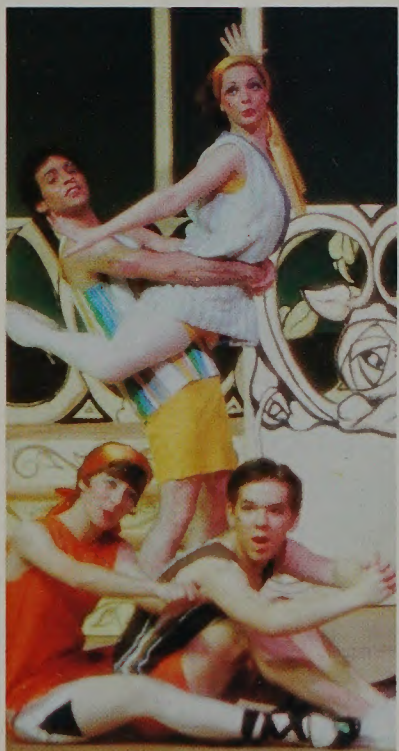

The 65-acre campus of rolling hills and stately pines is a natural setting for Centenary's Georgian style buildings. Located two miles south of downtown Shreveport, Centenary College is situated in the heart of the geographical, cultural and economic center of the Ark-La-Tex.

Student Life

There's more to Centenary than books and studying. In-between and after classes, students are busy with honor and service clubs, the Student Government Association, pre-professional organizations, fraternities and sororities, the newspaper and yearbook staffs, intramural sports, art shows, musicals, theatre and much more.

The College sponsors noted speakers, performers, plays and recitals, offering an ever-changing procession of campus activities.

Academic Program

Centenary College, proud of its tradition of academic excellence, provides a superior education for students capable of intellectual leadership. With widely varied offerings and individually constructed programs, Centenary serves students' educational interests without departing from the liberal arts concept.

Working closely with faculty advisors, students choose three courses in each of the four major divisions of the College — humanities, natural sciences, social sciences and fine arts. Beyond these, the college offers students the opportunity to pursue honors programs, independent study and research, study at other major academic institutions and travel programs for credit.

Winter Interim

Outdoor education in Florida, theatre tours to New York City, prelaw internships with local lawyers and skiing in Colorado are a sampling of the January Interim courses offered at Centenary.

The winter opportunity provides an intensive study experience in an area not normally offered in a regular semester's curriculum. The one-month term is preceded and followed by 14-week terms, creating a 4-1-4 academic calendar.

Courses of Instruction

ART

Ceramic Jewelry
Survey History of Art
Art Fundamentals
Introduction to Art
Art Appreciation
Selected Topics
Advanced Drawing and Composition
Advanced Painting in Water Colors
Art for the Elementary Teacher
Interior Design and Decoration

Special Programs

ENRICHMENT OPPORTUNITIES

In keeping with its aim to provide breadth as well as depth in the student's academic experience, Centenary offers a variety of off-campus, exchange, travel, and field study programs. Additional information on any of the programs may be obtained through the Office of the Dean of the College.

The Centenary/Aarhus Exchange Program

By means of a unique exchange program involving visiting professors as well as students, Centenary students have the opportunity to study at the English Institute of the University of Aarhus, Denmark. Because of this "sister institution" relationship between the two schools, students may earn credit at Centenary for courses completed at the University of Aarhus, without additional tuition and fees beyond those normally paid at Centenary.

British Studies at Oxford Program

Centenary students may also participate in the British Studies at Oxford program during the summer. Students live and study at University College, Oxford, and have the opportunity to travel throughout England.

Oak Ridge Semester

A semester of study and research at Oak Ridge National Laboratory is available to qualified science students through the joint sponsorship of Southern College University Union and the Energy Research and Development Administration. The program is

open to junior or senior majors in mathematics, chemistry, physics, biology and economics.

Washington Semester Program

Certain selected students are permitted to spend one semester of their junior year at the School of Government and Public Administration of The American University in Washington, D.C. The purposes of the program are to provide an opportunity for students to observe their government in action, to perform individual research and to exchange ideas with students from other institutions.

The English Language Center

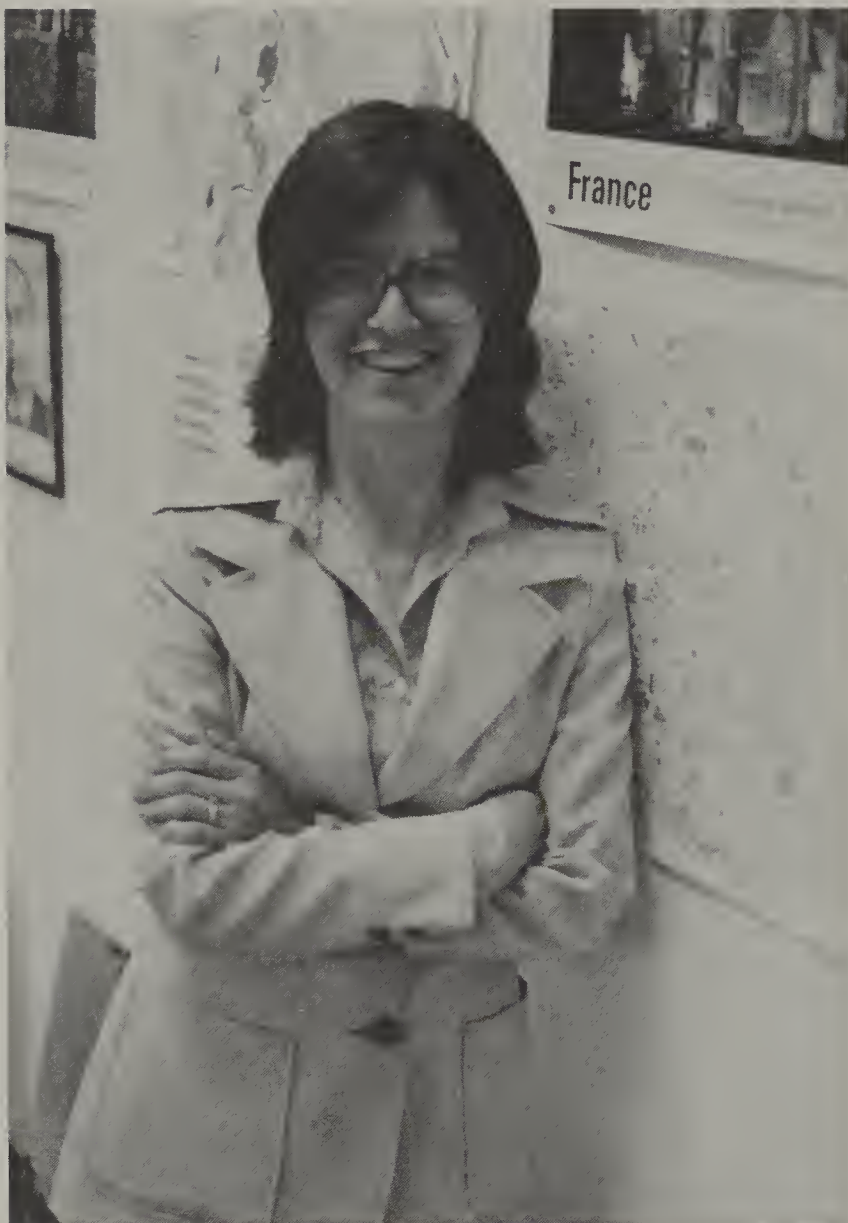

The English Language Center of Centenary College is an intensive program designed to provide the language skills and cultural orientation needed by international students who enroll in U.S. colleges and universities.

Continuing Education

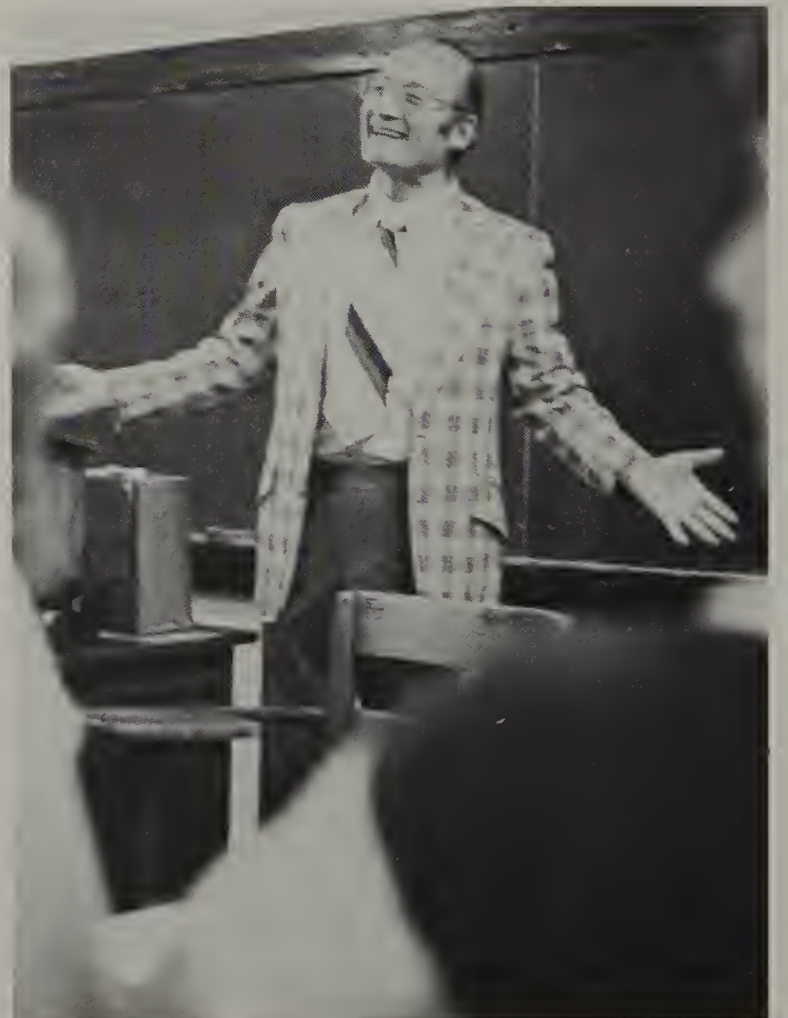

The Continuing Education Program at Centenary College offers short non-credit courses in the spring and fall to persons in the area who are sixty years of age or older. These courses cover a variety of subjects and are taught by Centenary professors and persons from the business community of Shreveport and Bossier City.

Continuing Education also presents seminars and workshops designed as training for those who work in adult services in the community, and sponsors the annual Deep South School of Alcohol and Drug Studies, held each summer on the Centenary campus.

The Faculty

Individual attention is a natural outgrowth of Centenary's student-professor ratio of 12 to 1. Over 90 percent of the senior faculty hold doctoral degrees. Twelve members of the faculty and staff have earned the coveted key of Phi Beta Kappa. Fourteen have the honor of membership in Omicron Delta Kappa. The faculty's close relationship to students assures that the learning process does not end when classes are over.

Admissions

Centenary College accepts those applicants who demonstrate academic achievement and motivation to succeed in the College's challenging scholastic program. Admission is based on the secondary school record, scores on the standard College entrance examinations, and personal qualities of the applicant.

It is strongly recommended that students include in their secondary school curriculum four years of English, two in history or social sciences, two in mathematics, one in the natural sciences and two in foreign language.

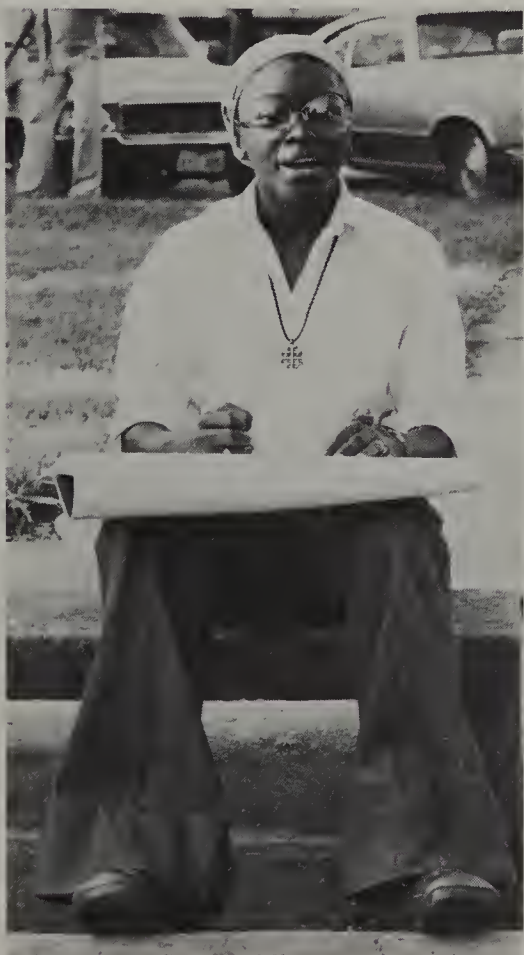

Regular Admission — Students should apply to Centenary in the fall of their senior year. The College offers admission without regard to color, race, sex, religion or physical handicap.

Early Admission — Students who demonstrate outstanding scholastic records, high SAT or ACT scores may apply to Centenary before completing secondary school.

Concurrent Enrollment — Qualified students may take courses at Centenary and earn College credit while still enrolled in high school.

Transfer Admissions — Applications from students wishing to transfer to Centenary College are taken from students at other small colleges, universities or junior colleges.

Transfer students must complete at least 30 semester hours in residence to be eligible for a degree from Centenary.

Application

All applicants must submit the following:

- Completed application form*
- \$20 non-refundable application fee*
- ACT or SAT scores*
- Current high school transcript, and if a transfer student, also a transcript of credits and courses from each college, university or small college attended.*

For more information, or to obtain an application form, contact

*The Office of Admissions
Centenary College
2911 Centenary Boulevard
Shreveport, LA 71104
1-318-869-5131*

Costs and Financial Aid

We believe a visit to Centenary is one of the best ways to determine the quality of the college. Sit in on classes; talk with professors in your field of interest; attend the theatre or a concert; visit with the students — experience the quality of Centenary's caring community.

Many students and their families feel that they cannot afford the quality, individual attention, and opportunities that are found in an education at a private institution such as Centenary College. With some hesitation they begin to look at alternatives for education which, in their minds, are less desirable.

In fact, this education may cost less than that at many state or larger private colleges and universities. It might be noted that more than 65% percent of all current students receive some form of financial aid from or through Centenary College.

Each year Centenary has aid available in the form of scholarships, grants and loans, federal and state grants and loans, and campus employment. Many students work for their major or other academic departments, combining work experience with expansion of their knowledge. The amount of financial aid awarded will generally be a combination of scholarship, or grant, loan and employment. You should be able to find the combination of aid that will fit your situation. Keep in mind that if you apply for aid you are considered for all programs for which you are eligible. You are also encouraged to apply for all eligible federal and state programs in addition to application for aid through the college.

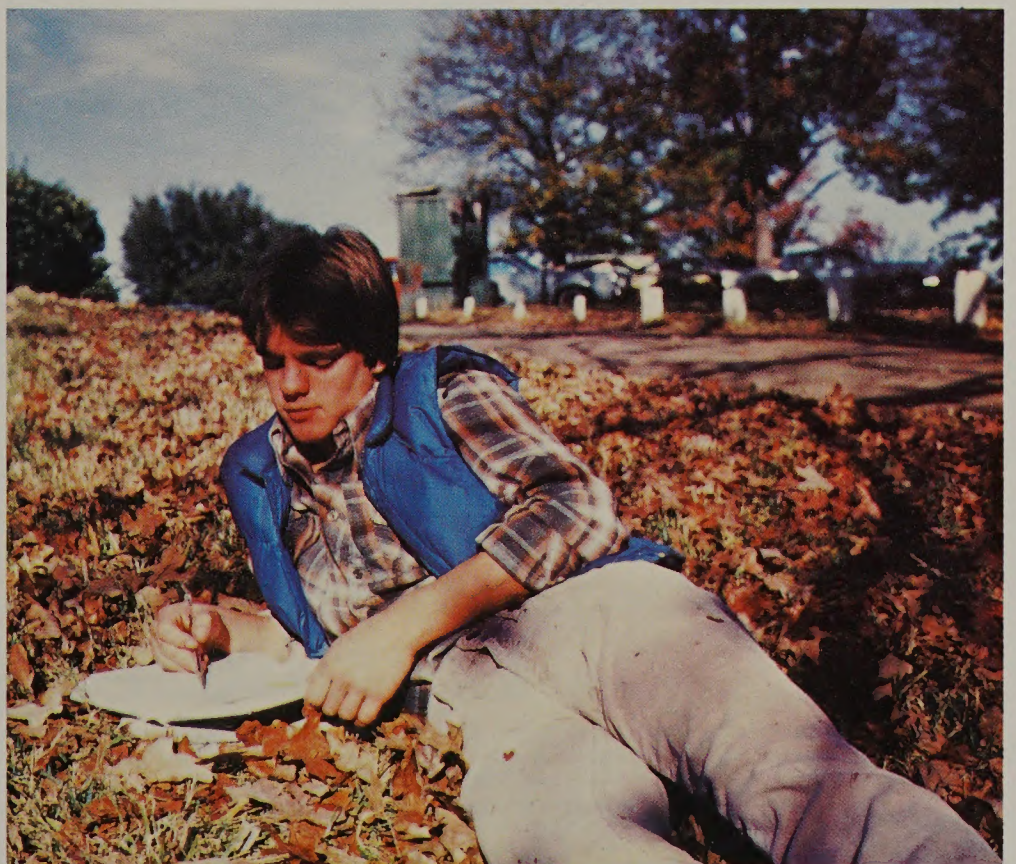

The costs for the 1980-81 academic year are listed. Charges of tuition, fees, room and board are made by the semester and they are payable by the semester.

	Semester	Year
Tuition	\$1,200	\$2,400
Fees	60	120
Room (Double)	350	700
Board	480	960
Books, Supplies	122	245
Personal (Estimate)	290	580
Transportation (Estimate)	98	195
	\$2,600	\$5,200

To apply for financial aid at Centenary, students should:

- 1. Apply for admission to Centenary.*
- 2. Submit a Centenary College Application for Financial Aid and Scholarship*
- 3. File a Financial Aid Form (FAF), available from your school, with the College Scholarship Service after January 1.*

Upon being accepted for admission to Centenary and upon receipt of all required forms in the Office of Financial Aid, students will receive a letter in the spring outlining the financial assistance awarded to them for the upcoming year. Financial aid applications received before April 1 are given priority consideration.

Directory

Visitors are welcome at Centenary College. The Office of Admissions is open from 8:30 a.m. until 4:00 p.m. on weekdays. Visitors should write or telephone well in advance for appointments during these hours. Special appointments may also be made in advance for Saturday mornings.

The Centenary campus is located two miles south of downtown Shreveport. The Shreveport International Airport has regularly scheduled flights on Delta, Frontier and Royale Airlines. Intercity bus transportation is provided by Trailways Intercity Bus System; intra city bus transportation, by the Sportran Transit System.

For further information write to the director of admissions:

Centenary College
P.O. Box 4188
Shreveport, Louisiana 71104

The telephone number of the Office of Admissions is: 318/869-5131

Centenary College does not discriminate on the basis of handicap in the recruitment and admission of students, the recruitment and employment of faculty and staff, and the operation of any of its programs and activities, as specified by federal laws and regulations. The designated coordinator for College compliance with Section 504 of the Rehabilitation Act of 1973 is Mr. Jessie Outlaw.

Centenary College offers admission without regard to color, race, sex or religion; and follows the guidelines for records established by the Family Educational Rights and Privacy Act (1974).
